University of Ljubljana Faculty of electrical engineering Operating Systems, Embedded Systems, and Real-Time Systems Janez Puhon Ljubljana, 2015

Operating systems, Embedded systems and Real-time

What is Prex? Prex is an open source, royalty-free, real-time operating system for embedded systems. It is designed and implemented for resource-constrained systems that require predictable timing behavior.

Prex - Embedded Real-Time Operating System

In computer science, real-time computing (RTC), or reactive computing describes hardware and software systems subject to a "real-time constraint", for example from event to system response. Real-time programs must guarantee response within specified time constraints, often referred to as "deadlines". The correctness of these types of systems ...

Real-time computing - Wikipedia

History The FreeRTOS kernel was originally developed by Richard Barry around 2003, and was later developed and maintained by Richard's company, Real Time Engineers Ltd. FreeRTOS was a runaway success, and in 2017 Real Time Engineers Ltd. passed stewardship of the FreeRTOS project to Amazon Web Services (AWS).

RTOS - Free professionally developed and robust real time

C2000 real-time controllers are a portfolio of high-performance microcontrollers that are purpose-built to control power electronics and provide advanced digital signal processing in industrial and automotive applications.

C2000 Real-Time Control MCUs | Overview | Microcontrollers

QP ("Quantum Platform") is a family of lightweight, open source software frameworks for building responsive and modular real-time embedded applications as systems of cooperating, event-driven active objects (actors).

QP (framework) - Wikipedia

PC/104 is a standard for PC-compatible modules (circuit boards) that can be stacked together to create an embedded computer system. These types of systems are often found in factories, laboratories, and machinery to provide programmable control of a complex system.

PC/104 Embedded Systems FAQ, EBX, Linux, Real Time, data

PDF /A-3 adds a single and highly significant feature to its predecessor PDF/A-2 (ISO 19005-2)â€”it enables you to embed any other format within a PDF/A file â€” a single file or multiple files, such as Excel, Word, HTML, CAD or XML files, for the first time.

PDF/A-3 Enables ANY Format to be Embedded in PDF - Foxit

Version Supported. PowerPoint 97 or later. Download. PowerPoint 97-2003 users: Click here (zip) or here (setup) PowerPoint 2007/2010/2013/2016 (32bit/64-bit) users : Click here

LiveWeb - insert and update web pages real-time in PowerPoint

Embedded low-power deep learning with TIDL 2 January 2018 Introduction Computer-vision algorithms used

to be quite different from one another. For example,

Embedded low-power deep learning with TIDL - TI.com

An embedded system is a computer that has been built to solve only a few very specific problems and is not easily changed. In contrast, a general-purpose computer can do many different jobs, and can be changed at any time with new programs for new jobs.

Embedded system - Simple English Wikipedia, the free

This book puts the spotlight on how a real-time kernel works. Using Micrium's uC/OS-III as a reference, the book consists of two complete parts.

Amazon.com: uC/OS-III, The Real-Time Kernel, or a High

Overview. Until recently, developers were forced to stop their application with a breakpoint to exchange data "snapshots" with the host computer in a technique that's™ called "stop-mode debugging".

Real Time Data eXchange (RTDX) - Texas Instruments Wiki

Note: If you have difficulty copying and pasting text from a PDF, first check if the problem font is embedded (File > Properties > Font tab). For an embedded font, try changing the point where the font is embedded, rather than sending it inside the PostScript file.

PDF fonts, Adobe Acrobat

SharkSSL is the smallest, fastest, and best performing embedded TLS v1.0/1.1/1.2 solution. With its array of compile-time options, the small and fast SharkSSL can be fine-tuned to a light footprint that occupies less than 20kB, while maintaining full x.509 authentication, using industry standard encryption.

This class is given by Karim J. Yaghmour, author of O'Reilly's Embedded Android and Building Embedded Linux Systems. In addition to having taught engineering teams from several brand-name companies and organizations, Karim has made a number of key open source contributions such as the Linux Trace Toolkit, relayfs and the Adeos ipipe.
