Factsheet: Understanding Local Recycling Markets

Battery recycling is a recycling activity that aims to reduce the number of batteries being disposed as municipal solid waste. Batteries contain a number of heavy metals and toxic chemicals and disposing of them by the same process as regular trash has raised concerns over soil contamination and water pollution.

Battery recycling - Wikipedia

Is recycling effective? Some people hate recycling; the very mention of it sets their blood boiling! They claim it's a waste of time, money, effort, and energyâ€”with supposedly recycled material often simply thrown away or shipped around the world to developing countries.
